Profile

A Games Programmer with a First Class BSc (Hons) in Computer Science from the University of Southampton. I have a specific interest in mechanic design and storytelling in games and have worked on multiple game projects both solo and in small groups in game jams, courseworks and personal projects. Through volunteering as Secretary on my Christian Union committee, I am experienced in meeting external deadlines and working with others.

Education

University of Southampton (Sept 2023 - July 2026)

BSc (Hons) Computer Science with First Class

Honours

- **Relevant Modules:** Programming, Game Design and Development, Algorithmics, Database Management, Interaction Design, Programming Language Concepts
 - **Final year project title:** Developing a hierarchical approach to procedural city generation
 - **Netcraft Prize:** Awarded both eligible years (parts I and II) for top 10 average in cohort
-

Work experience

DPS Games (April 2022)

- Shadowed programmers and designers
